To: Adam Miller <adam.miller@lacity.org>, Catherine Landers <catherine.landern@lacity.org>

Can you make sure that we are getting regular updates out to residents.

Thanks.

Commissioner James,
We are working on the design and have identified some construction challenges. We have a scheduled a field meeting with a contractor tomorrow morning to get feedback on the construction challenges.

Once we complete the design, we should be able to provide an estimate of the construction schedule. Let us know if you have further questions.

Thank you,
Alfred

Kevin

Do you, by chance, know what the revised work schedule is for the Appian main break and road stabilization?

We are hearing several months before this road is reopened.

Thanks, Rick

Alfred,

Thank you. Could you make sure to include Adam and Catherine in the next update as they are communicating directly with residents.

Thanks again and let us know when you have a firm timeline.

No problem, I've actually been in contact with both Richard and Carol (last updated them yesterday) since the event.

Here is an update on where we are at with the repair project:

For our topographic survey, we completed the field work this week. Over the weekend, BOE Survey will use the survey data to prepare a map so that it is available Monday morning.

We've scheduled General Services Department to perform borings on Monday to collect geotechnical data.

In the absence of survey and geotechnical data, we worked through the design for the bulkhead. So, as of today, we are in a position to verify our design and make appropriate refinements based the the survey and geotechnical information we will have early next week.

We anticipate finalizing the design by Wednesday and then sending the design to our on-call contractors for bids.

Let me know if you have any questions. Have a happy new year holiday!

Thank you,
Alfred
